MEMORANDUM FOR: Directorate Information Processing
Coordinators

SUBJECT: U.S. v. IBM

1. In order to measure the impact of IBM's requirements for documentation pertaining to electronic data processing systems (defined in Schedule 2, attached), and to determine if we should, can and will comply, I must have your initial feedback on this problem as soon as possible. Please furnish the following information by 22 March 1972.

a. Your estimate of volume of pertinent documents in your files.

b. What percentage of pertinent documents do you estimate will be classified? What special security problems might there be?

c. What significant problems, if any, do you foresee in completing this task?

d. Your estimate of manhours required to complete this task.

e. When is the earliest you can complete this task?

2. If we proceed with this requirement, it will be necessary to review current files for documents as defined in Schedule 2.

OFFICIAL USE ONLY

Approved For Release 2002/08/06 : CIA-RDP78-01092A000100060031-0

Pertinent documents should be selected from files and listed. Schedule 2 documents stored at the Records Center would be listed by type and estimated bulk... but actual file review and document selection of Records Center materials would not be required initially.
